

Ishwari Shelke

Pune, Maharashtra, India — +91 7498779118 — ishwarishelke2@gmail.com
<https://linkedin.com/in/ishwari-shelke-4195b3308> — <https://github.com/Ishwarishelke1>

Professional Summary

Aspiring Software Developer and Computer Engineering student (CGPA: 9.66/10) with hands-on experience in Java, JavaScript, Python, MERN Stack, RESTful APIs, and AWS, building scalable full-stack and machine learning applications. Smart India Hackathon 2024 National Finalist, passionate about developing efficient software solutions.

Education

B.E in Computer Engineering Savitribai Phule Pune University (SPPU) CGPA: 9.66	2023 – 2027
Maharashtra State Board of Higher Secondary Certificate (HSC) Percentage: 82.17%	2021 – 2023

Technical Skills

Programming Languages: Java, Python, JavaScript, SQL
Frontend: HTML5, CSS3, React.js, EJS, Responsive Design
Backend: Node.js, Express.js, RESTful APIs, MVC Architecture
Databases & Tools: MongoDB, MySQL, Git, GitHub, VSCode
Data & ML: Scikit-learn, Pandas, NumPy, Matplotlib, NLP, Power BI, Excel
Cloud & Concepts : AWS (EC2, S3, Lambda), Cloudinary, OOP, DSA, CNS, DBMS, Agile Methodology

Experience

Data Science Intern

- Analyzed and preprocessed 10,000+ records using Python, Pandas, and NumPy.
- Built and evaluated machine learning models using scikit-learn for prediction tasks.

Web Development Intern

- Developed responsive web interfaces using HTML, CSS, and JavaScript.
- Integrated RESTful APIs for seamless front-end and back-end communication.

AI Intern – Infosys Springboard

- Developed an AI-powered Digital Twin application using React, FastAPI, and MongoDB.
- Built predictive analytics modules to generate personalized AI insights.

Projects

Wanderlust – Airbnb Clone — GitHub	Full Stack Project
- Built full-stack rental platform with Passport.js auth, role-based authorization, property listings, Cloudinary image upload, booking system, and user reviews using MVC architecture. - Optimized MongoDB queries and RESTful APIs to reduce API response time; designed fully responsive React UI with reusable components for seamless desktop and mobile UX.	
AI Resume Screening and Candidate Ranking System — GitHub	Python — React.js
- Developed a full-stack AI recruitment platform for resume parsing, candidate ranking, job description matching, and fairness-aware hiring recommendations. - Implemented NLP-based information extraction, skill gap detection, interview question generation, recruiter dashboard and searchable candidate leaderboard.	
Bitcoin Price Prediction System — GitHub	Python — Machine Learning
- Built an end-to-end ML pipeline using Random Forest on historical OHLCV cryptocurrency data with feature engineering and GridSearchCV hyperparameter tuning. - Evaluated model performance using RMSE and MAE metrics; achieved reduced forecasting error and improved prediction reliability over baseline models.	

Certifications

- Data Structures and Algorithms in Java – Apna College
- MERN Stack Development – Apna College
- Data Analytics – Godrej Infotech
- AWS AI-Powered Cloud Engineer

Achievements

- Smart India Hackathon (SIH) 2024 – National Finalist among thousands of teams across India.
- Tech Pragyan 2025 – Participated in a National Level Hackathon, collaborating on innovative technology solutions.
- Smart India Hackathon (SIH) 2025 – Selected as College Level Finalist.
- Solved 200+ DSA problems on LeetCode, strengthening problem-solving and coding skills.
